

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

The Committee, to whom was referred Dr. Leidy's paper on *Nematoidea imperfecta*, reported, recommending its publication in the Transactions of the Society, which was ordered accordingly.

Prof. Frazer announced the death of John James Audubon, a member of this Society, on the 27th of January, 1851, aged 76 years.

On motion, Prof. Kendall was requested to prepare for the Society a notice of the labours of Mr. Schumacher; and Dr. Ruschenberger was requested to prepare a necrological notice of Mr. Audubon.

On motion, the resolution of 19th April, 1850, ordering the

publication of Prof. Loomis' paper on the Longitude of Hudson (Ohio) Observatory, was rescinded, in consequence of the paper having already been published elsewhere by Prof. Loomis.

Stated Meeting, February 21.

Present, twelve members.

Dr. PATTERSON, President, in the Chair.

Letters were read:—

From Adolphus M. Hart, dated St. Louis, Missouri, 7th February, 1851, offering for sale a number of specimens of Colonial Paper Money: and—
